## RAID 0/1 with Vertical SATA Drives

### TR-SATA-7-S

TR-SATA-7-S Addition of Removable Storage to System

Useful addition of removable storage for any system that must be protected for security. Lockable drawer includes two RAID 0/1 vertical short removable MLC type vertical SATA drives with data storage capacity up to 64GB.

TR-SATA-7-S can be used for offsite safe storage of data recorder on a small vertical SATA drives or data backup. Lockable door allows for easy removal and replacement of the vertical SATA drives.

Housed in a standard 5.25" bay, the TR-SATA-7-S is a useful device for easy off line data backup for safe transport and storage. Lockable drawer provides data protection and small size of vertical SATA drives for easy transport to secure facilities.

Vertical MLC SATA disk modules are compliant with SATA III 6.0Gb/s standard. The bandwidth is up to 600Mb/s. They are based on MLC NAND flash memory from Toshiba. Capacity is up to 64GB. Features include bad block management and S.M.A.R.T. & TRIM commands.

TR-SATA-7-S is available from stock. Single quantity price without vertical SATA drives is US \$145.

**\*\*NOTE: SATA drives are sold separately.\*\***
